

## Long Range LNG Gas Dispenser With 50L/min Dispensing Flow Rate

Our Product Introduction

For more products please visit us on [refueling-equipment.com](http://refueling-equipment.com)

### Basic Information

- Place of Origin: China
- Brand Name: Virette
- Model Number: LD-1
- Minimum Order Quantity: 1 set
- Delivery Time: 20 days

### Product Specification

- Rated Working Pressure: 16MPa
- Dispensing Flow Rate: 50L/min
- Gas-filling Preset Range: 1~9900 Kg
- Temperature Range: -40°C To 50°C
- Rating Power: <100W
- Accuracy: +1.0%
- Display: LCD
- Flow Rate: (1~80) Kg/min
- Highlight: **Long Range LNG Gas Dispenser ,  
50L/min LNG Gas Dispenser**

## Product Description

### Product Description:

The LNG Gas Dispenser is rated for a working pressure of 16MPa, which ensures that it can handle high-pressure gas without any problems. The flow rate of the dispenser can be adjusted from 1 to 80 Kg/min, making it suitable for a wide range of applications. The dispenser comes with an LCD display that provides real-time information about the dispensing process, including the flow rate, the gas-filling preset range, and the amount of gas dispensed.

The ambient humidity range for this product is between 30% and 90%, which ensures that it can be used in a variety of environments without any issues. The gas-filling preset range is between 1 and 9900 Kg, which means that the dispenser can be used to fill a wide range of vehicles and machinery, including trucks, buses, and industrial equipment.

The LNG Gas Dispenser is a reliable and efficient product that offers a number of advantages over traditional petrol pumping units and electric fuel delivery systems. It is a safe and convenient way to transfer LNG from storage tanks to vehicles, without any risk of leakage or contamination. The dispenser is easy to use and maintain, and it can be customized to meet the specific needs of different customers and applications.

### Applications:

The Virette LD-1 LNG Gas Dispenser from China is a high-quality product that is suitable for a variety of different applications. This model is a popular choice for businesses and organizations that require a reliable and efficient way to dispense LNG gas.

The LNG Gas Dispenser is an ideal solution for petroleum transfer stations, gasoline infusion machines, and other similar operations. With a flow rate of between 1 and 80 Kg/min, this model is capable of delivering LNG gas quickly and efficiently, making it ideal for busy locations that require a high volume of gas to be dispensed.

One of the key benefits of the Virette LD-1 LNG Gas Dispenser is its LCD display, which provides users with a clear and easy-to-read readout of the gas-filling preset range. This feature makes it easy to set the dispenser to the correct level, ensuring accurate and efficient gas dispensing every time.

The Virette LD-1 LNG Gas Dispenser is also designed with a rating power of less than 100W, making it an energy-efficient choice for businesses and organizations that are looking to minimize their energy usage and reduce their carbon footprint.

When purchasing the Virette LD-1 LNG Gas Dispenser, customers can expect a minimum order quantity of one set, with a delivery time of 20 days. This model is also backed by a warranty, providing customers with peace of mind and ensuring that they have a reliable and high-quality product to use for all of their LNG gas dispensing needs.

### Customization:

Our fuel dispensing pump has a gas-filling preset range of 1~9900 Kg and temperature range of -40°C To 50°C. It has a rated working pressure of 16MPa that can handle LNG gas. You can choose between AC220V or DC24V as your power supply.

Our diesel fuel injector is the perfect type for your LNG gas dispenser, making it efficient and easy to use. Customize your Virette LD-1 LNG Gas Dispenser with our product customization services today!

### Support and Services:

The LNG Gas Dispenser product comes with comprehensive technical support and services to ensure proper installation, operation, and maintenance. Our team of experts is available to assist with any inquiries related to the product, including troubleshooting, repair, and replacement parts. Additionally, we offer training programs for operators and technicians to ensure safe and efficient use of the product. Our services also include scheduled maintenance programs to prolong the lifespan of the product and minimize downtime. Contact us for more information on our technical support and services for the LNG Gas Dispenser product.
